

Staying Safe Online for HR

Start Date: 6/17/2015 7:30 AM

End Date: 6/17/2015 9:00 AM

Please join us for our June monthly program: Staying Safe Online for HR Professionals. This program is hosted by GVC SHRM. Sponsored by Focused 401(k) Partners. This program has been pre-approved by the Society for Human Resource Management for 1 Professional Development Credits (PDCs) towards the SHRM-SCP or SHRM-CP, and 1 HR (General) recertification credits by the HR Certification Institute. Are you worried about maintaining your privacy online? (You should be.) Do you know how to best protect client or company information? Is it safe to use social media? Have you heard of ransomware? Are you worried about identity theft? Most professionals know that it's important to secure their work and online presence, but many don't know how to do it effectively. Good security can enable—not hinder—your work. Join our speaker, Ben Woelk, as he discusses the steps you can take to adopt a security lifestyle that protects you and enables you to work effectively. By the end of this session, participants will know how to better:

- Protect their computer
- Protect their reputation
- Protect their information
- Protect their identity
- Create strong and memorable passwords
- Leverage cool tools

About our Speaker: Ben Woelk is Program Manager for the Rochester Institute of Technology Information Security Office. Ben has authored a number of articles on information security for non-technical users and is adjunct faculty at RIT in Media Sciences, Communication, and Computing Security. Current activities include leveraging social media for security awareness, participating in the Awareness and Training Working Group in the EDUCAUSE Higher Education Information Security Council, and serving as a Director at Large for the Society for Technical Communication. Location: NYSUT Conference Center, 30 North Union Street, Rochester, NY 14607
